

MG-Bulb Rivet (Double-Locking System)

(Sometimes written as *Magna Bulb* or *Magna-Bulb*) is a specialized type of blind rivet designed for high-strength, lightweight applications, particularly in aerospace and structural engineering.

Advantage:	Applications
* Bulbous Head Design * Blind Installation * Higher shear and tensile strength * Lightweight	• Aerospace • Automotive & Racing • Marine & Rail

	Material	Finish	Head
Body:	Carbon Steel	Gold trivalent plated	Dome (Truss)
Mandrel:	Carbon Steel	Zinc Plated	

Product Code SKU	Size		Body Length (Max)	Head Height (Max)	Head Dia. (Max)	Hole Size	Grip Range	Tensile	Shear
	G (mm)	Inch	L (mm)	C (mm)	B (mm)	(mm)	(mm)	N	N
